

‘The Track-O advantage’

- **Safety**
 - Virtually eliminates the risk of personal injuries when operated as per the Operation Manual.
 - Several safety features for ‘peace of mind’ operation
 - UL approved
- **Easy to operate**
 - Single operator (can be remote controlled)
 - Few buttons; very simple operation
- **Reliable**
 - Several powering options available (not dependent on one)
 - Proven technology
 - Tested in harsh conditions for 2 years
- **Robust**
 - Industrial design; Built to last for years
 - Transports very heavy loads
- **Versatile**
 - Stairways, uneven surfaces, difficult terrains,...
 - Powered by battery, AC, power pack or generator.
 - Narrow for easy door access
- **Maintenance free***
 - * For most applications, one simple maintenance check-up per year is required.
 - Easy to find replacement parts
- **Environmental friendly**
 - Pollution free (battery operated, quiet)
 - Can operate indoors and outdoors

Simply the best way to transport heavy loads
on inclined surfaces
